Dear Colleagues,

It seems as if time passes increasingly faster, taking us through the fall holidays and soon we will welcome in the New Year. It has been a whirlwind of faces, people, concepts, and acronyms in the past two months since you welcomed me to University Services. The sincerity of the emails and self-introductions have been genuine and pervasive. I have not felt such a connection to the people I work with as I do here. I have observed it to be a natural occurrence, mixed with collegiality and sincerity, and I am proud to be part of this team.

There is so much teamwork involved in a number of our projects such as the Helm move and Rewards and Recognition. With the deadline of the Rewards and Recognition around the corner (December 31!), we hope that you can set aside time to submit nominations for well-deserving colleagues and team members. Feel free to send nominations directly to my attention, if you are unable to access the form.

Time has taken us through the seasons and holidays, accompanied by a sense of thankfulness and family. It is my hope that you find your time filled with tremendous memories, family, and friends. Wishing a joyous holiday season to you and your family.

If there is ever an opportunity where I may be of any assistance, please do not hesitate to reach out. I look forward to working with all of you.

Hau’oli Makahiki Hou (Happy New Year),

Roger Verzosa
Executive Assistant & Office Manager, Office of the VP

OIT Taking Steps to Address Unwanted Email
On December 12, a new email spam filtering feature was enabled for the University Exchange Online email service. The change—which affects Exchange Online accounts only—will result in new incoming spam and other unsolicited email messages being filtered into the “Junk” folder. For Outlook users, the Junk features built into Outlook will be operational after this change is made.

Please refer to the links to the right for additional settings and controls.
Giving Thanks at the Dining Halls

Welcome Cassie

Cassie Lang joined the Faculty/Staff Housing and Real Estate Services (HRES) office in October. Cassie is already busy assisting the staff with rental and real estate purchase program activities. She has previously worked in the Development Office at Princeton so she might be a familiar face to some on campus. Welcome to HRES, Cassie!

New Process for Students Staying on Campus During Winter Break

With winter break approaching, HRES is implementing a new process this year for students staying on campus for any part of the break. For reasons of safety, undergraduate students staying on campus for any portion of the break period are required to register online. Students will be asked to indicate all dates that they plan to be in residence so that dorm access can be granted.

Housing Management Software Upgrade Complete

Following the successful testing phase of the Odyssey/HMS/ResCenter housing management software last month, version 19.2 was installed on December 10 and is up and running. The upgrade unlocks new features, such as scheduling bulk communications to students, and enhancements to existing features, providing users with the best online experience available.

Over 300 Followers on Our Instagram

Since launching in late August, the student-focused “Insta” account (@princeton_studenshousing) has gained over 300 followers. Posts on the social media platform cover everything from important reminders and announcements, to current and historical fun facts about the campus.

All staff are invited to follow us!
Holiday Food Drive

Print & Mail Services’ (P&M) Digital Print Center location (201 Nassau Street) was one of several campus drop-off locations that participated in this year’s Holiday Food Drive. Donations benefit the Mercer Street Friends Food Bank. Learn more about the Drive from the Community and Regional Affairs website.

Sending Thanks to our Deployed Servicepeople

For the second consecutive year, P&M worked with the Office of Community and Regional Affairs to set up a card writing station at its Digital Print Center location, complete with cards, pens, and sample messages for campus community members to stop in and write a card to a deployed serviceperson through Operation Gratitude.

Print & Mail Selected by Keller Center

With the unveiling of its new logo and launch of its new website, the Keller Center for Innovation in Engineering Education at Princeton has hired P&M to develop a variety of compelling and accessible collateral, including posters, stationery, PowerPoint presentations, and more. P&M was selected by the Keller Center after a “design invitational” that included two other design services, who each submitted a poster design that followed the Center’s newly established brand guide and specific parameters using included provided copy, photos, and logos.
